

The background of the slide features a solid purple color with several semi-transparent, overlapping geometric shapes. These shapes include a large circle in the upper right, a smaller circle in the lower right, and several diagonal and curved bands of varying shades of purple across the left side.

Pre-Registration Form

(This may be removed later. If so, skip and go to Portal Registration.)

Begin by filling out the pre-registration form found at preregister.devxdao.com and clicking "Submit". A DEVxDAO admin will review the submission and provide you with access

The screenshot shows a web form titled "Welcome!" with the sub-instruction "Pre-register for participation in the DevDAO". The form includes fields for "First Name *", "Last Name *", and "Email Address *". Below these fields is a section titled "Please check the box indicating you are interested in a grant:" with a checkbox labeled "Obtaining a grant". There is also an optional text area for "If you are requesting a grant, please state what technology you will be building or what service you will be providing in exchange for granted funds (Optional)" with a character limit of 500. A purple "Submit" button is located at the bottom right of the form area.

Portal Registration

Begin by going to <https://portal.devxdao.com/register> and clicking the "Register" button. You must complete the registration form and check the two (2) boxes at the bottom to continue.

When you have finished, click the "Submit" button at the bottom.

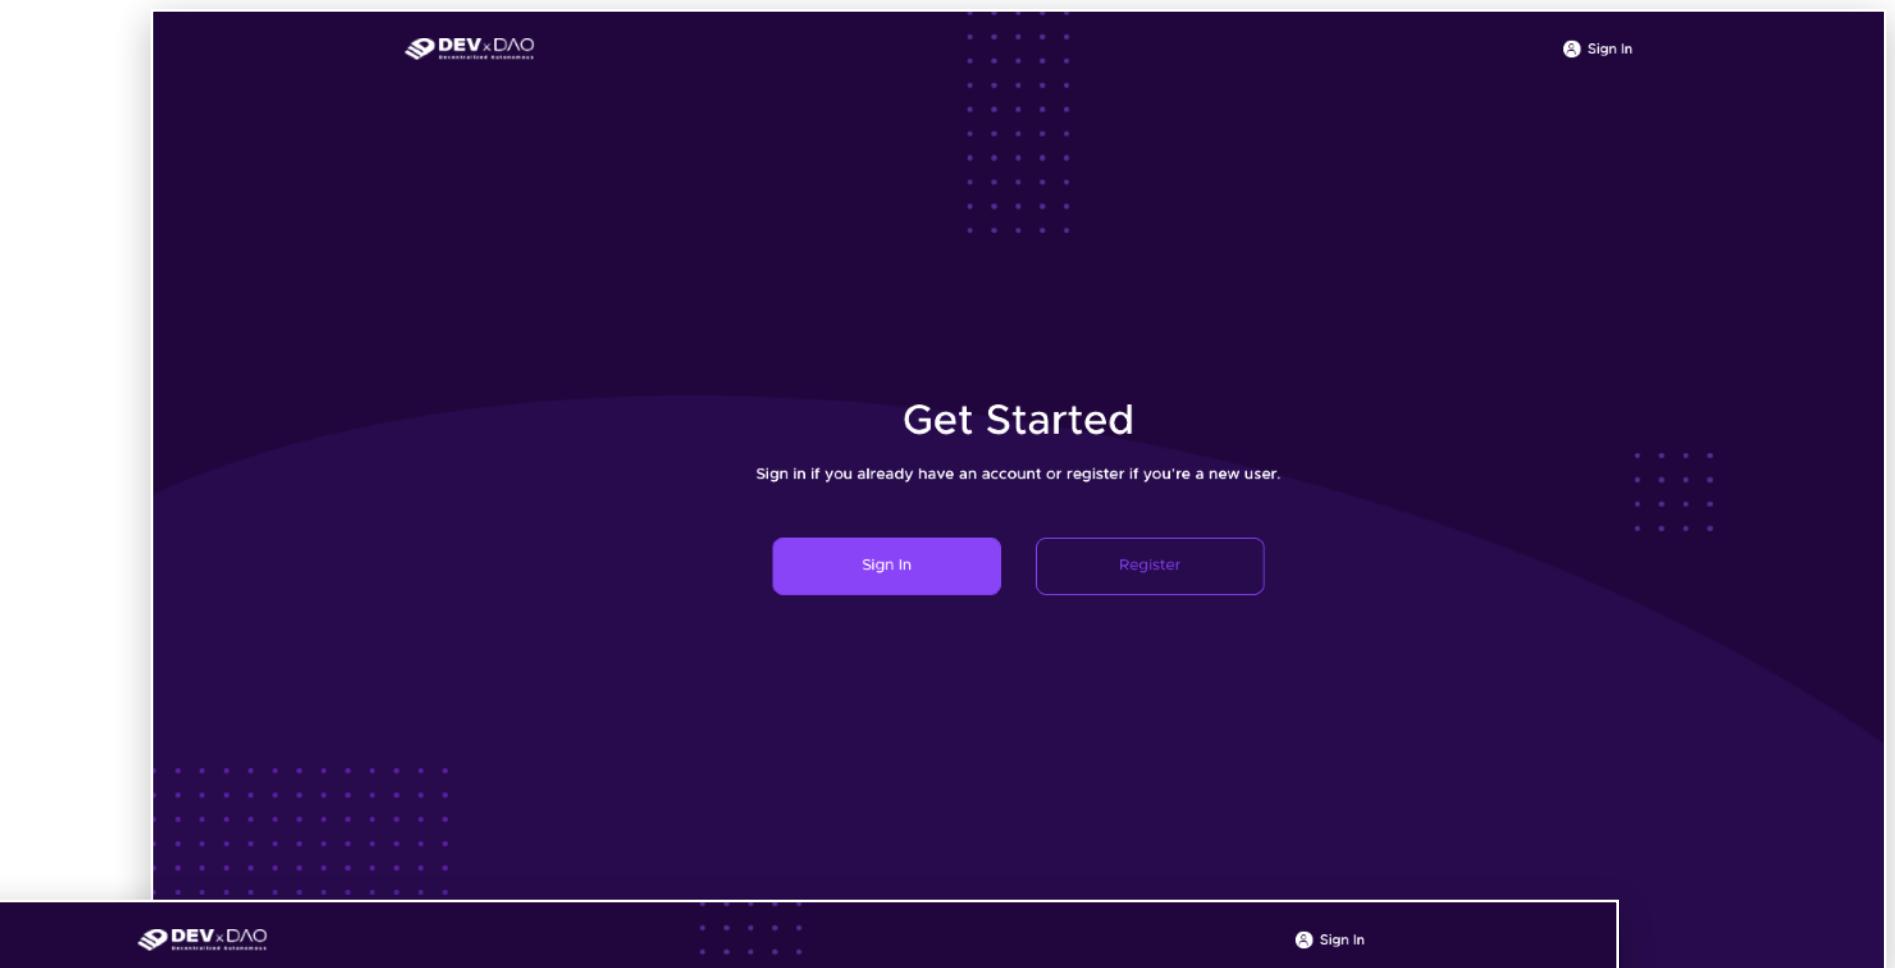

A screenshot of the DEVxDAO portal registration form. The title "New User" is at the top, followed by the instruction "Fill out the form to register". The form includes fields for First Name, Last Name, Company/Organization, Email, Confirm Email, Password, Confirm Password, Forum Name/Pseudonym, and Telegram. At the bottom, there are two checkboxes: one for agreeing to terms and another for being a citizen of specific countries. A "Submit" button is located at the bottom right.

Dashboard

Welcome to your Dashboard. Your user-type begins as **Associate**. At this level you can create new grant proposals.

Participating in voting rounds on other proposals is restricted until upgrading to **Voting Associate** (this can be achieved by successfully finishing all the milestones in a new grant started by you).

Once you are a Voting Associate, you are able to earn reputation points. Reputation will be discussed in depth later in the guide. (See "**My Reputation**")

On your dashboard you will find quick access tables to **Active Informal Ballots** in the upper left table, **Active Formal Votes** in the upper right table, and **Active Discussions** in the lower table. Once you become a Voting Associate, you will be able to interact with other user's proposals.

The screenshot shows the DevDAO dashboard interface. At the top, there is a purple header bar with the text "Welcome to the DevDAO" and "User Type: Associate". Below the header, on the left, is a sidebar with a purple header titled "Dashboard" containing links for "Discussions", "Votes", "My Proposals", "My Reputation", "My Grants", "Settings", and "Color Scheme", along with a "Sign Out" button. The main content area is divided into three sections:

- Active Informal Ballots:** A table with columns for "#", "Title", "Ballot Type", and "Submitted". It shows one result: "No Results Found".
- Active Formal Ballots:** A table with columns for "#", "Title", "Ballot Type", and "Submitted". It shows one result: "No Results Found".
- Active Discussions:** A table with columns for "#", "Title", "Comments", "Changes", and "Date". It lists four entries:
 - #21: API 15 member proposal test (4/7/2021 12:33 PM)
 - #14: Citation test (4/7/2021 3:42 PM)
 - #9: YES Quorum test from Charles (4/7/2021 11:18 PM)
 - #8: Participant test CTA (4/7/2021 12:36 PM)

At the bottom right of the dashboard, there is a small "Get Help" button and the copyright notice "©DevDAO 2021".

Discussions

The Discussions tab shows discussions currently happening on the platform. Clicking “Active” reveals all discussions currently open.

Clicking “Completed” reveals all discussions that have gone to vote or have been passed as grants.

If you are a **Voting Associate**, clicking on an active discussion allows you to view the proposal and also proposed change to some fields in the proposal. You can also click to upvote or downvote changes proposed by other users, and add comments. The proposal author will review all proposed changes before the vote begins and may accept or deny any change.

If a proposal has a change which gathers a lot of community support (measured by upvotes) the proposal author may want to accept this change, as not doing so will effect the likelihood of the proposal passing the voting stage.

Votes

The Votes tab shows live votes currently happening on the platform. Associates are only permitted to view live discussions, but can not interact with them. ([See Upgrading to Voting Associate](#))

Clicking "Active" reveals all live votes currently open.

Clicking "Completed" shows a detailed ledger of all votes that have taken place on the platform.

If you are a **Voting Associate** you will have the ability to access the voting interface. In this interface, you can vote for or against a proposal by staking a number of reputation in the direction of your vote. Your stake can be between 1 REP minimum and 1/2 of your REP as a maximum.

Informal votes will not use your REP in the vote, and instead serve as a practice vote for everyone to see the public sentiment.

Formal votes will use your REP when you vote. Be careful, because if you are on the losing side of the vote, the REP you voted with will be lost and given to those on the winning side.

ID	Title	Type	Ballot Type	Result	Stake For/Against	Quorum	Completed Date

My Proposals

The “My Proposals” tab lets you create new proposals as well as track proposals you have created in the past. Live proposals that you own will be found in the **Active** tab.

Any proposal you created that has been closed due to voting or completion can be found in the **All** tab.

Once you submit a proposal and an admin approves it, you will see a button to pay your DOS fee in this tab.

The top screenshot shows the 'Active' tab selected in the 'My Proposals' section. It displays a single proposal titled 'test1' with status 'In Discussion'. The bottom screenshot shows the 'All' tab selected, listing four proposals: 'APR 15 member proposal test', 'USER's proposal', 'DOS REP TEST', and 'MILESTONE TESTING PROB', each with their respective details like title, forum name, type, status, and date.

#	Title	Forum Name	Type	Status	Comments	Changes	Date

Starting a new proposal

Grant Proposal -

Before a user can obtain a grant, they must first fill out the grant application form and pass a vote. Start by clicking “New Grant Proposal” and fill out the application form. Be sure to complete the form in its entirety. You can **not** save and come back later at this time.

After you submit the grant application form, It will require admin approval to move ahead. You will be able to check the status under the “My Proposals” tab by viewing “Active Proposals.”

Simple Proposal -

Only Voting Associates may submit Simple Proposals. These proposals do not grant any funds, but rather, allow the community to vote on simple updates, changes, or needs for the DAO. Reputation is staked for simple proposals.

The screenshots illustrate the process of starting a new proposal. The top image shows the main dashboard with the 'My Proposals' tab selected. The middle image shows the detailed form for a 'New Grant Proposal'. The bottom image shows the list of proposals with one specific entry highlighted.

Screenshots Labels:

- Top Screenshot:** Shows the 'My Proposals' tab selected in the sidebar. A green box highlights the '+ New Grant Proposal' button.
- Middle Screenshot:** Shows the 'New Grant Proposal' form. Fields include 'Title' (General Project Details), 'Description' (Title of Proposed Project), 'Explanation' (Short description of your proposed Project), and 'Problem' (Explanation as to how your proposed Project will solve the outlined problem).
- Bottom Screenshot:** Shows the 'My Proposals' list. A proposal titled 'Guide Building Proposal' is listed with a status box showing 'Pending Withdrawal'. The status box is highlighted with a red box.

Paying the DOS Fee

Once an admin approves your grant proposal, you will be required to pay a small DOS Fee in ETH before it is made live. Once you have made your payment, enter the TXID from the ETH send into the field and click "Submit".

Your Proposal is now in Pending status. Once an admin reviews the TXID and approves the DOS Fee your proposal will become live and in discussion.

Soon, DOS Fee payments may be made in CSPR (Casper token) or credit card. Feel free to use these options once they are live!

If you are a **Voting Associate** you can pay the DOS Fee in REP instead.

Proposal in Discussion

When a grant proposal is live, other voting associates can weigh in and propose changes to your grant application. It is your right as the OP to decide whether to not these changes take effect as they are suggested.

Other users will leave comments, discuss, and vote "For" or "Against" on each change, creating a forum-style discussion around each change. It is highly recommended that all of these user indicators are taken into account when deciding whether or not to approve the changes.

When an appropriate amount of time has passed allowing **Voting Associates** to review the proposal and ALL proposed changes have been discussed and decided, it is time for the OP to move the proposal into the **Informal Voting Stage** by clicking the Start Information Voting Process button at the top of the page.

The screenshots illustrate the 'Guide Building Proposal' process. The top screenshot shows the 'Proposed Changes' section with two items, both labeled 'Needs Action'. The bottom screenshot shows the 'Comments' section with two comments from users 'charles (testt)' and 'sam (SamTest2)'. A green box highlights the 'Comments' section.

Informal Voting

Informal voting has begun. You will notice the proposal can now be found on the Dashboard Tab in the "Active Informal Votes" table.

There are two (2) voting sessions to pass a grant proposal, the **Informal Vote** and **Formal Vote**. The informal vote does not risk the reputation of the users voting regardless of the way the vote ends. Informal votes are there as a practice session as well as a way for others to gauge the overall feelings of the other voters.

If not enough Voting Associates participate in the voting session, the proposal will end in "No Quorum" status. The portal admin will have the ability to restart the vote in this situation.

A proposal must receive enough votes and pass the vote to move beyond the Informal Vote stage. If it fails this stage, it cannot move ahead.

Results

The results of the informal vote are shown once the timer ends. If the vote passes, you will be required to submit KYC, fill out the payment form, and electronically sign the Grant Agreement document **sent to your email** to move to the formal vote. Once these three steps are complete, a portal admin will start the Formal Vote.

Go to the My Proposals tab in the upper table to complete these actions. A new box will be available highlighting these actions. Don't forget to check your email for the HelloSign document to complete the Grant Agreement task.

The image contains two screenshots of the DEV & DAO portal. The top screenshot shows the 'Guide Building Proposal' page with a green box highlighting the 'Informal Vote Results' bar. The bottom screenshot shows the 'New Grant Proposal' page with a purple box highlighting the 'KYC' and 'Payments Form' buttons.

Guide Building Proposal

This proposal passed the informal vote stage. You need to submit your KYC, fill out the payment form, and sign the form sent to your email to move this to the formal vote. Go to the My Proposals tab and complete this in the upper table to complete these actions.

Informal Vote Results: 10% 90%

Preparing for the Formal Vote

After you have completed your KYC verification, submitted your payment information, and electronically signed the document in your email, the admin can now begin the **Formal Vote**. If this vote passes, your proposal will become a grant.

As the proposal's author (the "OP") you cannot vote and simply must wait for the results tallied from the votes of all

Voting Associates. With the support of enough voting associates, your proposal becomes a grant. Conversely, if the Formal vote fails your proposal will not become a grant.

Watch your email for the results notification and good luck!

The screenshot shows the DEV & DAO platform interface. On the left, a sidebar menu includes 'Dashboard', 'Discussions', 'Votes', 'My Proposals' (which is selected), 'All Proposals', 'My Reputation', 'My Grants', 'Settings', 'Color Scheme', and 'Sign Out'. The main content area has tabs for 'Active' and 'Completed'. A purple banner at the top says 'Congratulations! Your proposal has passed the informal voting stage.' Below it, 'Proposal Tracking' shows a table with one row: 'Date Passed' (4/9/2021 4:04 PM), 'Title' (Guide Building Proposal), 'Type' (Grant), 'Status' (Informal Voting Passed), 'Comments' (None), 'Changes' (None), and 'Date' (4/9/2021 10:56 AM). A green box highlights the 'Submitted' status under 'Status'. At the bottom, a 'HelloSign' integration shows a message: 'Everyone has signed Grant Agreement - Logo Everyone has signed Grant Agreement Signers Sam tester2 (sam+dxtest2@ledge...)' with a link 'Grant_Agreeme...'. The HelloSign logo and 'HELLOSIGN' text are also visible.

The Formal Vote

Once the admin begins the formal vote, **Voting Associates** will be notified via email and have a limited amount of time to vote using their reputation.

If not enough Voting Associates vote, it will end in "No Quorum" status and the portal admin will have the opportunity to restart at a later time.

The voting interface also displays the final results of the previous Informal Vote. This can be used as an indicator as to which way the vote will most likely go.

While voting is live, you will find this proposal in the "Active Formal Ballots" table on the main dashboard, and the OP will find it under the "My Proposals" tab.

The screenshots show the following:

- Top Screenshot:** A dashboard view showing a proposal titled "Guide Building Proposal". It indicates "Time Remaining: 00 days 00 hours 09 min 42 sec". A progress bar shows "Informal Vote Results" at 100% completion. Below it, a message states: "This ballot requires 10% of Voting Associates to vote. 1 Voting Associates must vote of the total 10 Voting Associates. 0 have voted." The user is identified as "Welcome, Sam User Type: Voting Associate".
- Middle Screenshot:** A list of "Active Formal Ballots". One entry is highlighted: "26 Guide Building Proposal" (Ballot Type: Grant) submitted "a few seconds ago".
- Bottom Screenshot:** A "VOTING ASSOCIATE VIEW" of the "Guide Building Proposal". It shows the proposal details and a warning dialog: "This action will use your Reputation points." It states: "You currently have 798.09 reputation points available. This action will stake 399 of those points." The dialog has "Confirm" and "Cancel" buttons. At the bottom, there are "Vote For" and "Vote Against" buttons.

After the Formal Vote

After the the Formal vote ends, the results will be displayed. Clicking "View Vote Details" will allow you to see the breakdown of who voted and which way they voted.

Your proposal is now in the final stages of activation and can be found in the "Grants" tab. Once an admin has activated it you can begin submitting milestones.

Reputation from votes that pass-

If you are the author of the proposal and currently an **Associate**, you will receive minted reputation held in a pending status. Once you complete the final milestone for the work proposed in the grant, you will become a **Voting Associate** and unlock the minted reputation.

If you are the author of the proposal and currently an **Associate**, you will receive minted reputation held in a pending status. Once you complete the final milestone for the work proposed in the grant, you will become a **Voting Associate** and unlock the minted reputation.

NOTE: If your are a **Voting Associate**, and not the proposal's author but simply voting in the proposal's Formal Vote, this vote will count towards or against your reputation score. Voting Associates will either win or lose reputation in the formal vote. We will go into more detail on reputation later. (See "**Reputation**")

The screenshots illustrate the workflow for a grant proposal:

Submitting Milestones

As you or your team completes the work outlined in your grant proposal, you will be required to submit your milestones and let the community vote. You can do this by opening the "My Grants" tab, clicking the "Submit Milestone" button and filling out the milestone submission form. You must submit your milestones in the order in which you applied in the grant application.

If your milestone submission fails either stage of the milestone vote, you will have the option to resubmit your milestone until it passes. You need to fix anything which caused the failure prior to resubmitting.

When your milestone passes the informal vote, you will have to wait for an admin to begin the Formal Vote. If formal voting passes, your milestone and associated payment is approved. You will also be able to submit your next milestone.

All milestones must be submitted and voted through the system.

The screenshots illustrate the milestones submission process:

- Screenshot 1:** Shows the "Grants" section of the dashboard. A modal window is open, prompting the user to "Submit Next Milestone".
- Screenshot 2:** Shows the "Guide Building Proposal" grant details. A sub-modal window is open for "Submitting milestone#1 for Guide Building Proposal". It includes fields for "Milestone Title" (Mile 1), "What will be delivered" (asdfadasf), "Acceptance Criteria" (dasdasdf), "KPIs" (Grant portion released \$5000), and a URL for completed work. A note asks for comments if this is a second submission. Buttons for "Submit" and "Cancel" are at the bottom.
- Screenshot 3:** Shows the "Active Informal Ballots" section of the dashboard. A specific ballot for a "Milestone" is highlighted with a green border, indicating its status or selection.

Upgrading to Voting Associate

When you have completed submission of **all** milestones and the community votes them through, your grant proposal is now complete. Along with completion comes upgrade to Voting Associate status. To begin, Check your email.

You will now have to sign the "Voting Associate Amendment" found in your inbox. Once you sign, you will be upgraded to a Voting Associate, your reputation for completing the grant will be minted, and you will now be able to vote on other proposals in the system using your newly minted Rep score.

The top screenshot shows a dark-themed user interface for 'DEV & DAO' with a sidebar menu. The 'My Grants' option is highlighted in purple. A modal window titled 'Grants' displays a table with one row: 'Guide Building Proposal' (Status: Completed, Start Date: 4/20/2021 12:10 PM, Milestones Complete: 2, Milestones Total: 2). The bottom screenshot shows a white-themed 'HELLOSIGN' interface with a message from 'wulf.kaal@emergingte.ch' requesting a signature on a 'Membership Amendment' document. It includes a 'REVIEW & SIGN' button and a 'Reply' link.

My Reputation

Reputation is used when voting on grant proposals authored by others or for staking on your own proposals if you are a Voting Associate.

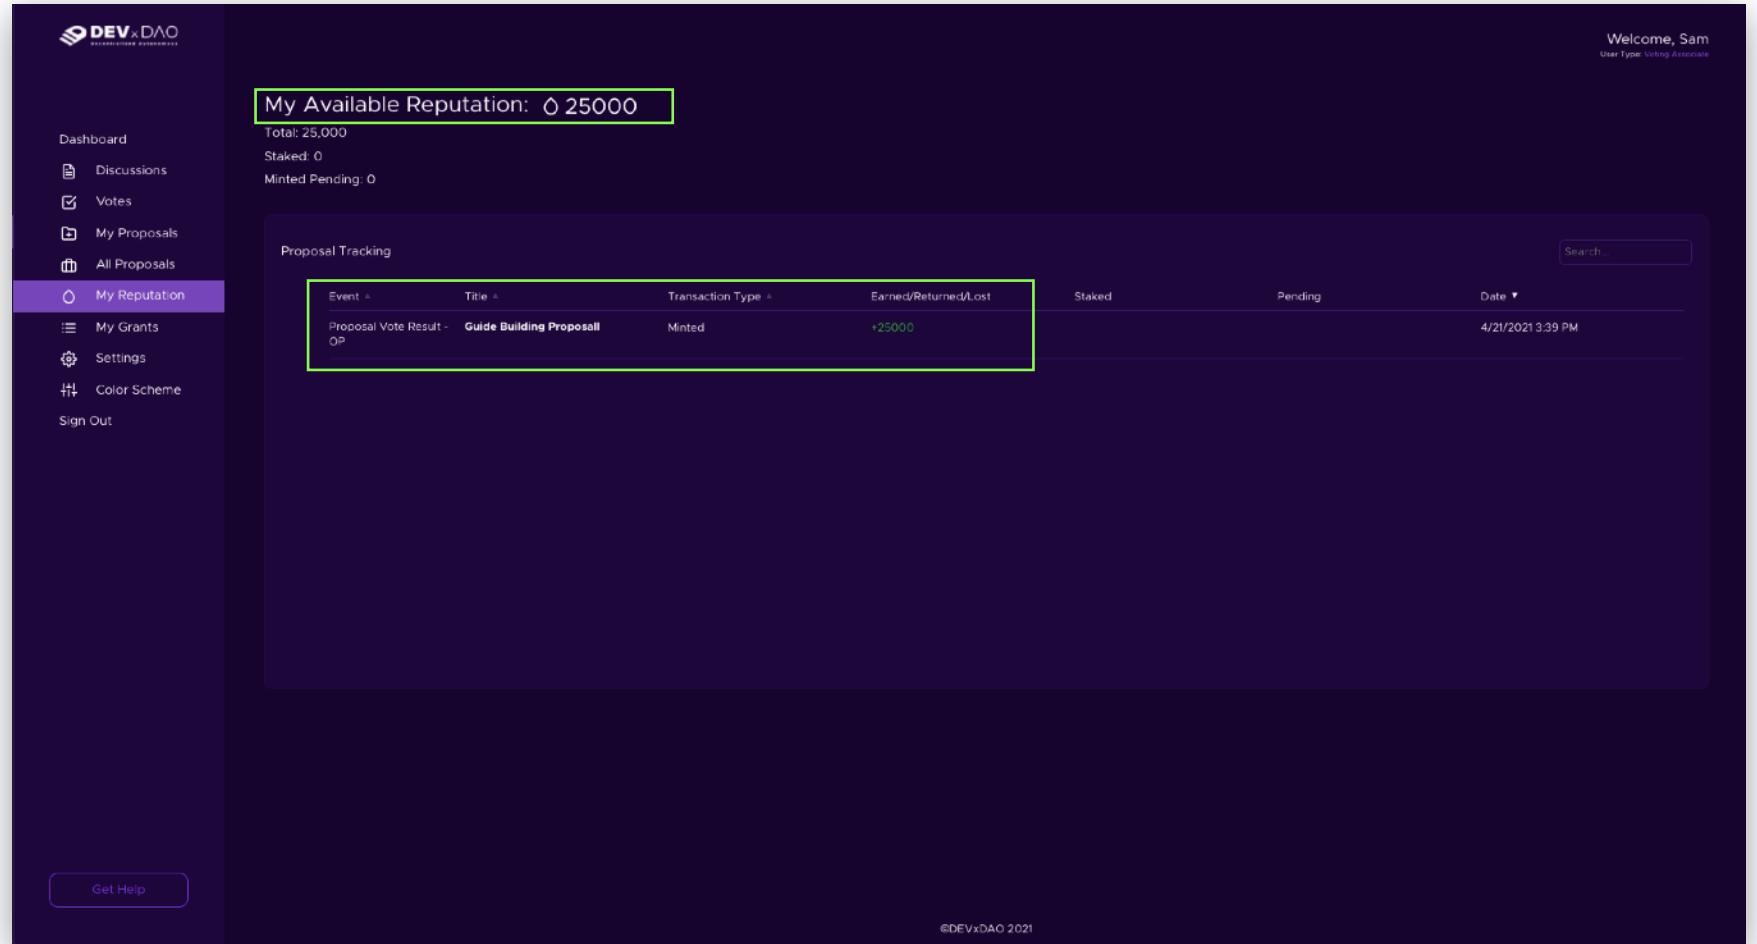

Once you complete your first grant and upgrade to Voting Associate, you will be able to start using reputation on the platform.

"My Available Reputation" shows available reputation that can be used for voting or staking on proposals at this time.

"Total" is the total amount of reputation you currently have, including staked reputation.

"Minted pending" reputation is given for proposals. This reputation will become available when all work is complete for the associated grant that provided this reputation. Along with being the author ("OP") of a proposal, voting for a proposal that passes earns a portion of the REP minted for the proposal as well.

When you stake reputation it is deducted from your "Available Reputation" and moved into the "Staked" line.

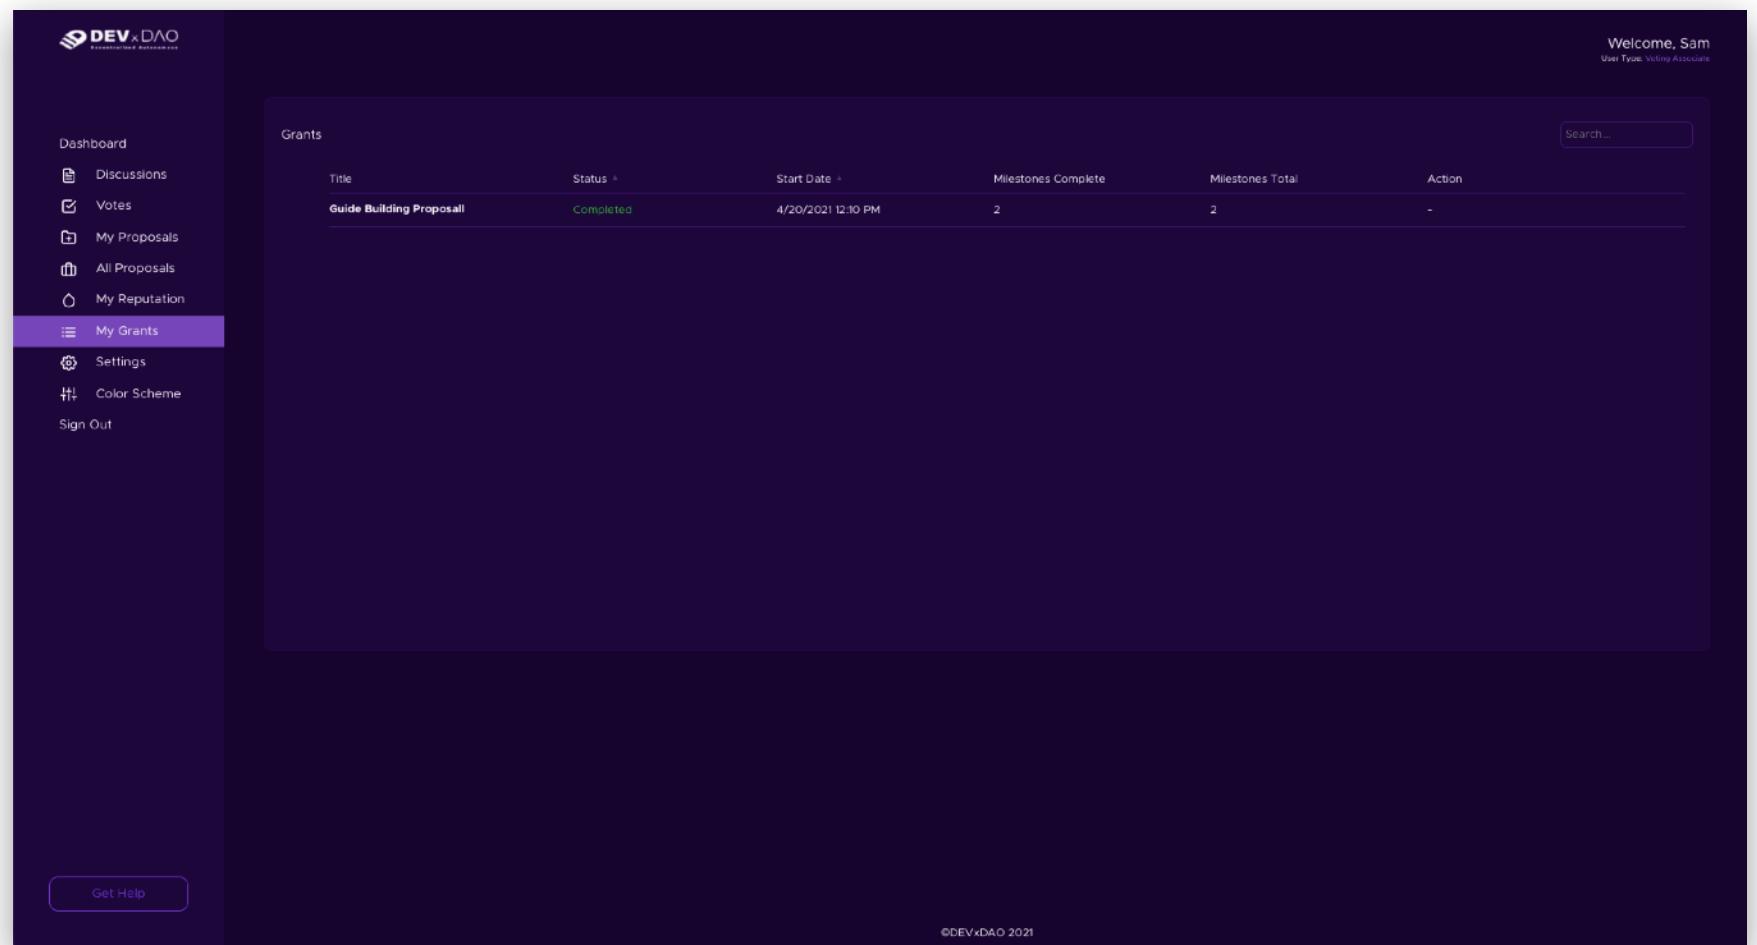

Event	Title	Transaction Type	Earned/Returned/lost
proposal	Vote Result - Guide Building Proposal	Minted	+25000

My Grants

This tab lets you track your current and finished grants, submit milestones, and see the status of active grants you have in the system. All proposals that pass the Formal vote (allowing them to become grants) are found here.

The screenshot shows the DEVxDAO application interface. At the top right, it says "Welcome, Sam" and "User Type: Voting Associate". On the left is a sidebar with a dark background and white text, listing various options: Dashboard, Discussions, Votes, My Proposals, All Proposals, My Reputation, My Grants (which is highlighted in purple), Settings, Color Scheme, and Sign Out. Below the sidebar is a main content area titled "Grants". It has a header with columns: Title, Status, Start Date, Milestones Complete, Milestones Total, and Action. There is one row visible: "Guide Building Proposal" with "Completed" under Status, "4/20/2021 12:10 PM" under Start Date, "2" under Milestones Complete, "2" under Milestones Total, and a minus sign under Action. At the bottom of the main area is a "Get Help" button. The footer of the page includes the copyright notice "©DEVxDAO 2021".
